

ISLAND 400CN CONCRETE NEUTRALIZER

DESCRIPTION:

ISLAND CONCRETE NEUTRALIZER is a premium grade concrete surface conditioner in concentrated form. It requires dilution with clean water prior to application.

USE:

Neutralizes the highly alkaline state of new concrete surface exterior or interior. It also etches concrete, thus, assures good paint adhesion and leave aside possible mapping and efflorescence defects on paints.

APPEARANCE:

Clear thin solution

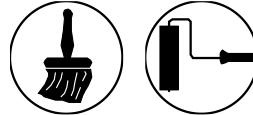

DILUTION:

Mix one (1) gallon of Island Concrete Neutralizer with sixteen to twenty (16-20) gallons of clean water.

SURFACE PREPARATION:

Remove all loosely adherent grits or cement mortar. Clean concrete surface from dirt, dust, or any adhesion barriers. Any oil/grease contaminants must be rubbed or removed with strong thinner dipped with clean rags

APPLICATION:

Brush **Roller or Mop**

Apply the diluted solution with brush, roller, or mop over the masonry surface until completely wetted. After overnight standing, brush-off any loose whitish residues that form on the surface. Allow 24 hours standby-time to enhance reaction and drying of concrete during warm weather, or 2 or more days during cloudy weather condition prior to primer application.

COVERAGE:

Approximately 150 sq. m. for every equivalent gallon of Island Concrete Neutralizer mixed with water.

PACKAGING:

1L and 4L plastic container

SHELF LIFE:

1 year in unopened container

The information in this data sheet is based on our current knowledge and experience. In view of the many factors that may affect processing and application, these data do not relieve users from the responsibility of carrying out their own tests neither do they imply any legally binding assurance of certain properties or suitability for a specific purpose. It is the responsibility of those to whom we supply our products to ensure that any propriety rights and existing laws and legislation are observed.

STORAGE & DISPOSAL:

Keep container tightly sealed. Do not store above 35 °C. Must not be disposed together with household garbage. Do not allow product to reach sewage system. Disposal must be according to government regulations.

LABEL ELEMENTS:

Danger: Causes severe skin burns and eye damage. Causes serious eye damage. Toxic to aquatic life with long lasting effects. Harmful if swallowed.

Contains: Phosphoric Acid, Zinc Chloride

Precautions: Keep locked up and out of the reach of children. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Do not empty into drains, dispose of this material and its container at hazardous or special waste collection point. Wear suitable protective clothing, gloves, and eye/face protection. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).
