

ISLAND 440RC RUST CONVERTER

DESCRIPTION:

ISLAND 440RC RUST CONVERTER is a metal treatment solution. It is water based; however, it is highly toxic and contains acid ingredients.

USE:

It is used to chemically convert rust to iron phosphate, a stable, inert, and hard mass that will eventually become part of the metal.

COLOR:

Clear to somewhat turbid solution

APPLICATION:

Brush

REDUCTION:

Apply as is

DRYING TIME:

Allow overnight reaction time

COVERAGE:

Approximately 14.00 sq. m. / L on moderately rusted metal

SURFACE PREPARATION:

Merely scrape or chip loose scales and dust-off dirt accumulation on the metal surface. Then apply liberally with brush.

PACKAGING:

1L and 4L plastic container

SHELF LIFE:

1 year in unopened container

STORAGE & DISPOSAL:

Keep container tightly sealed. Do not store above 35 °C. Must not be disposed together with household garbage. Do not allow product to reach sewage system. Disposal must be according to government regulations.

LABEL ELEMENTS:

Danger: Highly flammable liquid and vapour. Causes severe skin burns and eye damage. May cause drowsiness or dizziness. May be harmful if swallowed or inhaled. Harmful to aquatic life with long lasting effects.

Contains: Phosphoric Acid

Precautions: Keep locked up and out of the reach of children. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Do not empty into drains, dispose of this material and its container at hazardous or special waste collection point. Wear suitable protective clothing, gloves, and eye/face protection. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).
