

EPOXY MARINE NON-SAG PUTTY

DESCRIPTION:

EPOXY MARINE NON-SAG PUTTY is a two-component epoxy polyamide-based compound formulated for gap filling, patching, and adhesive applications. When Parts A and B are thoroughly mixed, it cures to form a tough, durable material with excellent adhesion to a wide range of substrates, high cohesive strength, and outstanding resistance to water and chemicals.

USE:

- As gap filler specially for sloping, vertical and overhead surfaces of application such as divider wall or ceiling, made of wood, plywood, fiberboard, cement board and many other construction materials.
- As patching filler for unsound masonry, patch and seal cracked concrete, concrete joint, etc.
- Also used in marine application as an encapsulation coating for wooden or fiber-casted boat.
- Can be used for vertical and overhead applications.

COLOR/APPEARANCE:

Epoxy Marine Non-sag Putty (Part A)- Cream
Epoxy Marine Non-sag Putty Hardener (Part B)- Gray

APPLICATION:

Putty Knife

Plastic or
Rubber Trowel

MIXING RATIO:

Epoxy Marine Non-sag Putty (Part A) – 1 part
Epoxy Marine Non-sag Putty Hardener (Part B)- 1 part

SURFACE PREPARATION:

Surface for repair must be dust and oil free.

APPLICATION GUIDELINES:

Mix Part A and Part B according to the recommended ratio until the color is completely uniform with no streaks. Apply the mixture onto a properly surface-prepared substrate using firm pressure to ensure a strong mechanical bond within the specified potlife. Always mix only amount required for immediate use to prevent premature curing and material wastage.

CURING TIME:

20 – 24 hours

The information in this data sheet is based on our current knowledge and experience. In view of the many factors that may affect processing and application, these data do not relieve users from the responsibility of carrying out their own tests; neither do they imply any legally binding assurance of certain properties or suitability for a specific purpose. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed.

POT LIFE:

1 – 2 hours @ 30°C

NOTE: Pot life may vary depending on weather condition.

THEORETICAL COVERAGE:

Approximately 3 – 4 sq. m. per liter set @ 1 mm thickness

NOTE: Thickness may vary depending on surface profile and depth of gap/crack.

PACKAGING:

Liter Set: 1 Liter Part A and 1 Liter Part B

Gallon Set: 1 Gallon Part A and 1 Gallon Part B

SHELF LIFE:

3 years in unopened container

NOTE: High humidity might reduce the shelf-life of the product.

STORAGE & DISPOSAL:

Keep container tightly sealed. Ensure Part A is always paired with Part B during storage. Do not store above 35 °C. Must not be disposed together with household garbage. Do not allow product to reach sewage system. Disposal must be according to government regulations.

LABEL ELEMENTS:

PART A

Warning: Flammable liquid and vapor. Toxic to aquatic life with long lasting effects. Harmful if swallowed. Harmful in contact with skin. Causes skin and serious eye irritation. May cause an allergic skin reaction. May be harmful if inhaled.

Contains: Diglycidyl ether of bisphenol A, Cellulose Acetate Butyrate

Precaution: Keep locked up and out of the reach of children. Avoid contact with skin and eyes. Do not empty into drains, dispose of this material and its container at hazardous or special waste collection point. Wear suitable clothing, gloves and eye/face protection. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible). In case of accident by inhalation: remove casualty to fresh air and keep at rest.

PART B

Warning: Flammable liquid and vapor. Causes skin and serious eye irritation. May be harmful if inhaled.

Contains: Polyamide Resin

Precaution: Keep out of the reach of children. Wear suitable protective clothing and gloves. If swallowed, seek medical advice immediately and show this container or label. Dispose of this material and its container at hazardous or special waste collection point.
